INDEPENDENT AUDITORS' REPORT

To the Trustees
Roman Catholic Archdiocese of Boston Long-Term Disability Plan

We have audited the accompanying statements of benefit obligations and net assets available for benefits of the Roman Catholic Archdiocese of Boston Long-Term Disability Plan as of June 30, 2008 and 2007, and the related statements of changes in benefit obligations and net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Roman Catholic Archdiocese of Boston Long-Term Disability Plan at June 30, 2008 and 2007, and the changes in its financial status for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Roman Catholic Archdiocese of Boston Long-Term Disability Plan

Notes to Financial Statements

June 30, 2008

Note 1 - Description of Plan

The following brief description of the Roman Catholic Archdiocese of Boston Long-Term Disability Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General - The Plan provides long-term disability insurance coverage for substantially all lay employees who work for a participating employer. All participating employers are separately incorporated Catholic organizations that operate within the Archdiocese of Boston.

Eligibility for Participation - For all employees, participation begins on the first of the month following the completion of 12 months of continuous active employment. Those who are employed by participating schools are eligible provided they have been scheduled to work at least 24 hours per week for an entire academic year. All others must be working at least 20 hours per week during the calendar year.

Benefits - The amount of long-term disability coverage is based upon 60% of the employee's monthly earnings to a maximum benefit of \$5,000 per month. The minimum benefit payable under the Plan is the greater of \$50 or 15% of a participating employee's gross disability payment.

Contributions - The Plan agreement provides that the participating employers make monthly contributions to the Plan of a specified amount based on the annual salaries of the eligible employees. The employer's contribution rate is determined annually by the Plan's trustees, and is primarily set based upon the insurance contract premiums paid by the Plan. The contribution rate for the year ended June 30, 2008 and 2007 was \$.50 per \$100 of eligible salaries per month.

Funding - The Plan is fully insured through an insurance contract. Accordingly, the statement of changes in net assets available for benefits is charged with the cost of current insurance premiums, and there are generally no recorded benefit obligations. These insurance contracts automatically renew during October of 2008, unless otherwise directed by the Plan. Subsequent to year-end, the Plan entered into a contract with a new insurance provider which expires on September 30, 2010, with the option to renew for an additional year.

Note 2 - Summary of Significant Accounting Policies

Accounting Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures of assets, liabilities, benefit obligations and changes therein. Actual results could differ from those estimates.

Cash and Cash Equivalents - For purposes of presentation on the statement of net assets, cash includes all bank accounts. The Plan deposits its cash in major financial institutions, which are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$100,000. At times, such cash is in excess of FDIC insured limits. There are no uninsured cash deposits at June 30, 2008. Cash equivalents consist of investments in uninsured money market mutual funds approximating \$994,000 at June 30, 2008. The Plan has not experienced any losses as a result of uninsured amounts.

Roman Catholic Archdiocese of Boston Long-Term Disability Plan

Notes to Financial Statements (Cont.)

June 30, 2008

Note 2 - Summary of Significant Accounting Policies (Cont.)

Participating Employers' Contributions Receivable – Amounts receivable from participating employers are stated net of an allowance for uncollectible accounts, which is reported on the face of the Plan's statement of benefit obligations and net assets available for benefits. The allowance is established via a provision for uncollectible assessments. On a periodic basis, management evaluates its receivables and establishes or adjusts its allowance to an amount that it believes will be adequate to absorb possible losses on accounts that may become uncollectible based on evaluations of the collectibility of individual accounts.

Note 3 - Related Party Transactions

A service fee for administrative, technology and clerical services is charged to the Plan by the Roman Catholic Archbishop of Boston, A Corporation Sole. The fees charged for the years ended June 30, 2008 and 2007 were approximately \$50,100 and \$79,800, respectively.

Note 4 - Board-Designated Net Assets

In a prior year, the Board of Trustees voted to establish a targeted reserve for net assets equaling 150% of the current year's assessments. At June 30, 2008 and 2007, the net assets available are sufficient to satisfy this reserve and are presented in net assets as board-designated net assets.

Note 5 - Financial Instruments and Concentrations of Credit Risk

The Plan's financial instruments that are potentially subject to concentrations of credit risk consist primarily of cash and cash equivalents (Note 2), and contributions receivable from participating employers, which are periodically evaluated for their collectibility.

INDEPENDENT AUDITORS' REPORT

To the Trustees
Roman Catholic Archdiocese of Boston Long-Term Disability Plan

The audited financial statements of the Plan, and our report thereon, are presented in the preceding section of this report.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedules of general and administrative expenses for the years ended June 30, 2008 and 2007 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
