

## **Top Five Paid Information**

### **Top Five Paid Employees in 2005**

For 2005, the total amount paid to the top five employees was less than \$750,000 in the aggregate. Because the individual employees had no knowledge that the amounts paid to them in 2005 would be publicly disclosed, it is management's opinion that to do so would be an unwarranted invasion of their privacy.

The names of the top five individuals and the amounts that they are paid in 2006 will be disclosed, as all employees are now on notice that it is our intention to make such disclosure.
