Common Investment Fund
Investment Review
June 30, 2011
Background Summary

- The Common Investment Fund was established in 1970 as a vehicle for equity and fixed income investments. The fund solely serves Boston's Archdiocese Parishes, Schools, Cemeteries and related organizations.

- In 1995 the Common Investment Fund (CIF) formed a partnership with the Roman Catholic Archdiocese of Boston Pension Plan (RCAB PP) and the Caritas Christi Retirement Plan (CCRP) to pool its own investments with the investments of the two pension plans. This new pooled investment vehicle is collectively referred to as the RCAB Collective Investment Partnership. Member activity in CIF increases or decreases CIF’s share of CIP.
RCAB Collective Investment Partnership

- Following is a summary breakdown of the assets under management in the RCAB Collective Investment Partnership.
- The summary shows the respective partners investment in the Partnership.
- Note that the Net Asset Value of the fund is reduced on the financial statements by a payable amount equal to the value of Caritas Christi. While the investments have not yet changed, this brings on the pending full distribution to Caritas on July 1, 2011.
RCAB Collective Investment Partnership - $810.9M fair value of investments @6/30/11

CC RP $286M (35%)
RCAB PP $267M (33%)
CIF $257.9M (32%)
The Investment Committee of the Archdiocesan Finance Council manages the investment portfolio.

This Committee is comprised of independent volunteers, all of whom are world class. They have significant experience and an outstanding reputation within the investment field. A listing of the committee is on page 7 and background details is on our website:

Collective Investment Partnership Performance Review

- Following is the current investment direction of the Investment Committee:
  - Maintain 0% Exposure to Developed Market Europe
  - Underperforming long duration interest rates
  - Overweight emerging markets, with an emphasis on China & Brazil
  - Overweight corporate bond/credit types of strategies in fixed income
  - Increased exposure to dividend paying large cap equities
