REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Trustees of
RCAB Collective Investment Partnership

We have audited the accompanying financial statements of RCAB Collective Investment Partnership, which comprise the statement of net assets, including the condensed schedule of investments as of June 30, 2021, and the related statement of operations and changes in net assets for the year then ended, the financial highlights for each of the five years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of RCAB Collective Investment Partnership as of June 30, 2021, and the results of its operations and its changes in net assets for the year then ended, and its financial highlights for each of the five years then ended in accordance with accounting principles generally accepted in the United States of America.

RCAB COLLECTIVE INVESTMENT PARTNERSHIP
Financial Highlights
(For a unit outstanding throughout the year)
For the five years ended June 30, 2021

	Year Ended June 30				
	<u>2021</u>	<u>2020</u>	<u>2019</u>	<u>2018</u>	<u>2017</u>
Net asset value per unit - beginning of year	\$ 3.692	\$ 3.625	\$ 3.509	\$ 3.249	\$ 2.858
Investment operations:					
Net investment income ⁽¹⁾	0.007	0.043	0.049	0.027	0.012
Net gain on investments	<u>1.179</u>	<u>0.024</u>	<u>0.067</u>	<u>0.233</u>	<u>0.379</u>
Net increase from investment operations	<u>1.186</u>	<u>0.067</u>	<u>0.116</u>	<u>0.260</u>	<u>0.391</u>
Net asset value per unit - end of year	<u>\$ 4.878</u>	<u>\$ 3.692</u>	<u>\$ 3.625</u>	<u>\$ 3.509</u>	<u>\$ 3.249</u>
Total return ⁽²⁾⁽³⁾	<u>32.10 %</u>	<u>1.87 %</u>	<u>3.30 %</u>	<u>8.00 %</u>	<u>13.68 %</u>
Ratios/Supplemental Data: ⁽³⁾					
Net assets at end of year (in thousands)	<u>\$ 568,014</u>	<u>\$ 471,450</u>	<u>\$ 482,654</u>	<u>\$ 495,646</u>	<u>\$ 497,364</u>
Ratio of expenses to average net assets ⁽³⁾⁽⁴⁾	<u>0.63 %</u>	<u>0.64 %</u>	<u>0.62 %</u>	<u>0.59 %</u>	<u>0.56 %</u>
Ratio of net investment income to average net assets ⁽³⁾⁽⁴⁾	<u>0.16 %</u>	<u>1.21 %</u>	<u>1.39 %</u>	<u>0.78 %</u>	<u>0.41 %</u>
Ratio of net gain on investments to average net assets ⁽³⁾⁽⁴⁾	<u>27.11 %</u>	<u>0.44 %</u>	<u>1.68 %</u>	<u>6.93 %</u>	<u>12.32 %</u>

- (1) Net investment income per unit has been calculated using quarter-end average units outstanding during the period.
(2) Total return represents the percentage increase or decrease of net asset value per unit at the end of the year over net asset value per unit at the beginning of the year.
(3) An individual partner's return and ratios may vary based on the timing of capital transactions.
(4) Average net assets were derived from the quarterly net assets of the Partnership.

The accompanying notes are an integral part of these financial statements.

RCAB COLLECTIVE INVESTMENT PARTNERSHIP

Notes to Financial Statements

June 30, 2021

1. ORGANIZATION AND INVESTMENT OBJECTIVE

The RCAB Collective Investment Partnership (the “Partnership”) was established on September 19, 1995 and serves as an investment pool for the Common Investment Fund, Roman Catholic Archbishop of Boston; the Clergy Health Retirement and Trust; and the Pension Plan and Trust of the Roman Catholic Archdiocese of Boston. The Partnership was formed pursuant to the Uniform Partnership Act as set forth in Chapter 108A of the General Laws of the Commonwealth of Massachusetts.

The investment objective of the Partnership is to maximize long-term total return, primarily by investing in equity securities, investment grade debt and fixed income securities. State Street Corporation (“State Street”) is the primary custodian of the Partnership’s assets and record keeper of all related activities. The Partnership utilizes a multi-manager approach toward investing and engages separately incorporated investment managers (“the Investment Managers”) to execute the investment direction of the Partnership.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Partnership is a private investment vehicle that follows the Investment Company accounting and reporting guidance from the Financial Accounting Standards Board which is part of U.S. GAAP. The significant accounting policies followed by the Partnership are described below:

Cash and Cash Equivalents

Cash and cash equivalents held by the Partnership include money market funds held directly by the Partnership in accounts at banks and other financial institutions. Mutual funds that are under the control of the Investment Managers are presented within investments in securities, at fair value, on the statement of net assets and are included in the summary schedule of investments.

The Partnership deposits its cash in major financial institutions. Deposits in transaction accounts are 100% insured by the Federal Deposit Insurance Corporation (“FDIC”) up to \$250,000 per institution. At times, funds deposited in banks are in excess of FDIC insured limits. The Partnership reviews and monitors the strength of the financial institutions and, as such, has not experienced any losses as a result of the use of uninsured deposit accounts. Cash equivalents includes custody sweep funds held in U.S. government money market funds that seek to maximize current income and maintain a stable per share net asset value (“NAV”).

Security Valuation

The investment valuation policy of the Partnership is to value investments at fair value, which is generally determined as the amount that could reasonably be expected to realize from an orderly disposition of securities and other financial instruments over a reasonable period of time. By its nature, a fair value price is a good faith estimate of the valuation in a current sale and may not reflect an actual market price.

RCAB COLLECTIVE INVESTMENT PARTNERSHIP

Notes to Financial Statements

June 30, 2021

Portfolio securities listed on a securities exchange for which market quotations are readily available (including registered investment companies that are exchange traded) are valued at the last sale price or official closing price on each business day, or if there is no such reported sale or official closing price, at the most recent quoted bid price. If no sales are reported for that day, investments are valued at the last reported bid price, or at fair value as determined in good faith by the Partnership. Securities which are primarily traded on foreign exchanges are generally valued at the preceding closing values of such securities on their respective exchanges, and those values are then translated into U.S. dollars at the current exchange rate. Short-term investments with a remaining maturity of 60 days or less are valued at amortized cost, which approximates fair value. Securities for which quotations are not readily available are valued at estimated fair value as determined in good faith by the Partnership or other persons acting at their direction. Investments in registered investment companies (other than those that are exchange traded), if any, are valued at their respective NAV.

Certain fixed income securities are valued at the closing bid for such securities as supplied by a primary pricing source chosen by the Partnership. The Partnership evaluates such primary pricing sources on an ongoing basis, and may change a pricing source should it deem it appropriate.

In the event current market prices or quotations are deemed not readily available or reliable by the Partnership, such as the occurrence of a significant event, the fair value will be determined in good faith by the Investment Manager using alternative fair valuation methods. Fair value may be determined using an independent fair value service under valuation procedures approved by the Partnership. The independent fair value service may take into account multiple factors including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of foreign securities exchanges. A “significant event” is an event that the Partnership believes, with reasonably high degree of certainty, has caused the closing market prices of the Partnership’s portfolio securities to no longer reflect their value at the time of the Partnership’s NAV calculation.

The Partnership measures the fair value of investments in certain entities that do not have a quoted market price but calculate NAV per share or its equivalent. In accordance with such guidance, the Partnership has the ability to measure the fair value of an investment in an investee based on the investee’s NAV per share or its equivalent.

Asset-Backed Securities

Asset-backed securities are primarily collateralized by automobile loans, credit card loans and other asset-backed securities.

Collateralized Mortgage Obligations

The Partnership’s portfolio includes collateralized mortgage obligations (“CMOs”), which are debt obligations collateralized by a pool of mortgages or mortgage-backed securities. CMOs separate the cash flows from the pool into “pieces” or “tranches” with various maturities. CMOs are structured such that the cash flow received from the underlying pool can be allocated, on a prioritized basis, among the classes of bonds comprising the CMO. The Partnership is subject to the risk of prepayment on CMO securities.

Yankee Bonds

The Partnership’s portfolio includes Yankee bonds, which are bonds denominated in U.S. dollars that are publicly issued in the U.S. by foreign banks and corporations.

RCAB COLLECTIVE INVESTMENT PARTNERSHIP

Notes to Financial Statements

June 30, 2021

Private Investments

The Partnership's assets included investments in several private investments. Private investments consist of investments in privately-held limited partnerships that typically offer subscription and redemption options to investors (see Note 6). The frequency of such subscriptions or redemptions is dictated by the governing documents of the private investment. The amount of liquidity provided to investors in a particular private investment is generally consistent with the liquidity risk associated with the private investments. Most of the private investments share limited liquidity and only permit monthly, quarterly or semiannual redemptions. The Partnership's investment in private investments exposes the Partnership to varying degrees of credit, market and currency risk. In addition, the Partnership may be subject to additional counterparty risk should counterparties of the private investments fail to meet the terms of their contracts.

Mutual Funds

Mutual funds are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price.

Money Market Funds

Money market funds are short-term investments with a remaining maturity of 90 days or less at the time of purchase, and are not credit impaired are stated at amortized cost, which approximates fair value.

Securities Transactions and Investment Income

Securities transactions are recorded on a trade-date basis. Receivable for securities sold is comprised of a receivable from brokers on unsettled trades amounting to \$864,383. Payable for securities purchased is comprised of payables to brokers on unsettled trades amounting to \$2,613,184. Realized gains and losses from securities are calculated using an average-cost basis. Interest is recorded on the accrual basis net of applicable withholding taxes, and dividends are recorded on the ex-dividend date net of applicable withholding taxes. The cost of bonds is adjusted for the amortization of premiums and accretion of discounts.

Foreign Currency Translation

The accounting records of the Partnership are maintained in U.S. dollars. Securities denominated in a foreign currency are translated into U.S. dollars at the prevailing rates of exchange at each period end. Purchases and sales of securities, income receipts and expense payments are priced in U.S. dollars at the prevailing exchange rate on the respective dates of the transactions. The impact of foreign currency translation is included in the computation of realized and unrealized gains and losses on the statement of operations.

Subscriptions and Redemptions

As a normal practice on the opening of business on the first day of a calendar month, units in the Partnership may be purchased or redeemed at the net asset value at the close of business on the immediately preceding business day. Redemptions are recognized as liabilities when each of the dollar amounts requested in the redemption notice becomes fixed, which generally occurs on the last day of the fiscal period. As a result, redemptions paid after the end of the year, but based upon the year-end net asset values, are reflected as redemptions payable. Redemption notices received for which the dollar amounts are not fixed or determinable remain in capital until the net asset value used to determine the withdrawal amounts is determined. Subscriptions received prior to the last day of the fiscal period are recorded as liabilities on the statement of net assets.

RCAB COLLECTIVE INVESTMENT PARTNERSHIP
Notes to Financial Statements
June 30, 2021

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP on an accrual basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expense in net assets from operations during the reporting period. Significant estimates include the valuation of investments. Actual results could differ from those estimates.

3. TAXES

For tax purposes, the Partnership has elected to be treated as a pass-through entity. The income or loss from the Partnership is allocated to the partners. The Partnership follows accounting guidance which requires recognition of the benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. The Partnership's management has reviewed the tax positions for open periods as applicable to the partners, and determined that no provision for income tax is required in the Partnership's financial statements.

4. FEES AND RELATED PARTY TRANSACTIONS

The investment advisory fees are based upon the market value of the Partnership's investments following a fee schedule agreed upon with individual Investment Managers, who are unrelated to the Partnership. The custodial fees are based upon the fair market value of the Partnership's assets in custody, the number of transactions and a base fee. During the year ended June 30, 2021, the Partnership utilized 24 separate Investment Managers, with fees paid to Investment Managers ranging from 0.01% to 1.75%.

During the year ended June 30, 2021, the Partnership incurred a service fee from the Roman Catholic Archbishop of Boston, A Corporation Sole, a related organization, in the amount of \$564,629. These service fees relate to the allocable share of administrative, accounting, technology and clerical services performed on behalf of the Partnership.

5. PARTNERSHIP UNITS

The Partnership Agreement authorizes the issuance of an unlimited number of units. Transactions in units of the Partnership were as follows for the year ended June 30, 2021:

Units at beginning of year	127,681,159
Units issued/subscribed	2,413,061
Units redeemed	<u>(13,645,798)</u>
Units at end of year	<u>116,448,422</u>

The net asset value per unit calculated at the close of the last business day of each month is used as the per unit price for any member investment activity (subscriptions and redemptions).

RCAB COLLECTIVE INVESTMENT PARTNERSHIP

Notes to Financial Statements

June 30, 2021

6. FAIR VALUE MEASUREMENTS

In accordance with the authoritative guidance on fair value measurements and disclosures under U.S. GAAP, the Partnership discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Partnership has the ability to access at the measurement date.
- Level 2 - Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants would use in valuing a portfolio instrument. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk and others.
- Level 3 - Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Partnership's own assumptions about the factors market participants would use in valuing a portfolio instrument, and would be based on the best information available.

Changes in valuation techniques may result in transfers in or out of current assigned level within the hierarchy. The Partnership recognizes transfers between fair value hierarchy levels at the approximate date or change in circumstances that causes the transfer. There were no transfers between the levels within the fair value hierarchy during the year. The following is a description of the valuation techniques and inputs used for assets and liabilities measured at fair value, as well as the general classification pursuant to the valuation hierarchy.

Equity Securities and Mutual Funds

Investments in equity securities and mutual funds valued at quoted prices in an active market are classified within Level 1 of the fair value hierarchy.

Corporate Debt and U.S. Government Securities

When quoted prices are available in an active market, corporate debt and U.S. government securities are classified within Level 1 of the fair value hierarchy. Quoted prices in inactive markets are classified within Level 2. If quoted market prices are not available or accessible, then fair values are estimated using pricing models, matrix pricing, or discounted cash flow models. The fair values of corporate debt and U.S. government securities are estimated using pricing models or matrix pricing based on observable prices of corporate debt securities that trade in inactive markets and they are generally classified within Level 2 of the fair value hierarchy.

Asset-backed Securities and Collateralized Mortgage Obligations

Asset-backed securities and collateralized mortgage obligations fair values are estimated using an evaluated bid process from multiple independent sources and are classified within Level 2 of the fair value hierarchy.

RCAB COLLECTIVE INVESTMENT PARTNERSHIP
Notes to Financial Statements
June 30, 2021

Private Investments

Private investments consist of investments in various privately-held investment funds and common collective trust funds. These investments are aggregated into equity, high-yield, emerging markets, domestic fixed income, and commingled and hedge funds based on their underlying investments. The fair value of such investments is determined using the NAV per share as a practical expedient.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Partnership believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date, and that difference may be material to the financial statements.

The following table summarizes the Partnership's assets and liabilities measured at fair value on a recurring basis within the fair value hierarchy levels as of June 30, 2021:

	<u>June 30, 2021</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>
Assets			
Investments in securities			
Common stock	\$ 201,651,286	\$ 201,651,286	\$ -
Fixed income	128,218,714	-	128,218,714
Mutual funds	<u>79,395,006</u>	<u>79,395,006</u>	<u>-</u>
Total assets measured at fair value	409,265,006	<u>\$ 281,046,292</u>	<u>\$ 128,218,714</u>
Private investments measured at net asset value	<u>154,474,919</u>		
Total assets	<u>\$ 563,739,925</u>		

RCAB COLLECTIVE INVESTMENT PARTNERSHIP
Notes to Financial Statements
June 30, 2021

The table below presents additional information for the Partnership’s private investments. At June 30, 2021 there was an unfunded commitment of \$5,741,292 associated with a private investment under investment fund. These disclosures are required for all investments that are eligible to be valued using the practical expedient, regardless of whether the practical expedient has been applied.

<u>Fund Type</u>	<u>Fair Value</u>	<u>Redemption Terms</u>	<u>Lockup</u>
International equity	\$ 87,396,855	Weekly, 10 days; Weekly, 3 days; Monthly, 10 days	None
Event driven	41,165,745	Quarterly, 65 days notice	None
Screened Index	20,954,544	Daily	None
Distressed Opportunities	4,957,775	\$10M commitment; no redemptions allowed	NA
Total private investments	<u>\$ 154,474,919</u>		

International Equity

This class includes three private investments that invest in small and mid-capitalization equity securities listed in markets outside of North America. The investment objective of these funds is to earn absolute returns over the long term. The investment is subject to risks that the entity’s investment exposure may potentially increase any adverse impact of movements in the international equity markets.

Event Driven

This class includes two private investments that invest in event-driven domestic and international equity and bond markets. The investment objective is to use a multi-strategy investment program to achieve capital appreciation. These investments are subject to general economic and regulatory risk, as well as the possibility that investments may be illiquid and unresponsive to economic change.

Distressed Opportunities

This class includes one private investment fund that makes investments in less liquid and/or longer-duration distressed situations and opportunities resulting from capital dislocations. These funds typically have periods of 10 or more years during which committed capital may be drawn. Distributions are received through liquidation of the underlying assets of the funds, which are anticipated to occur over the next 4 to 10 years. These funds invest globally and certain private placement securities may also be held.

Screened Index

This class includes one equity index fund that seeks to produce a return, before expenses, as closely as practical to the return of the Standard & Poor’s 500 Index. The investment attempts to achieve its objective by employing a passive investment approach of securities represented in the Standard & Poor’s 500 Index. The Screened Index Fund implements a screen on ethical values of the catholic church and guidelines of the United States Conference of Catholic Bishops.

RCAB COLLECTIVE INVESTMENT PARTNERSHIP
Notes to Financial Statements
June 30, 2021

7. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Partnership may enter into contracts that contain a variety of indemnifications. The Partnership's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Partnership that have not yet occurred. However, since inception and commencement of operations, the Partnership has not had any claims or losses pursuant to these contracts, and expects any risk of loss to be remote.

8. COVID-19 PANDEMIC

The COVID-19 pandemic, whose effects first became known in January 2020, is having a broad and negative impact on commerce and financial markets around the world. COVID-19 has not adversely impacted the Partnership's financial statements. Management continues to monitor the events in an attempt to minimize any potential impact to the Partnership's operations.

9. SUBSEQUENT EVENTS

In connection with the preparation of these financial statements, the Partnership has evaluated events and transactions through October 18, 2021, which is the date the financial statements were available for issuance.

Subsequent to June 30, 2021, the Partnership processed additional subscriptions of \$50,000 and redemptions of \$4,700,000.
