Treasurer - Reverend Brian Hehir

**MISSION:** The Mission of St. Ann's Home, Inc. is to support, nurture, rehabilitate, educate and advocate for children who are emotionally and/or behaviorally disturbed. We seek to reverse the impact of physical, emotional, and/or developmental traumas experienced in the early years of these children's lives through our residential, day and outpatient programs. In addition to our treatment and education programs, St. Ann's Home Inc. is a committed advocate for children and families. In so doing St. Ann's Home seeks to alleviate the conditions that prevent our children from reaching their full potential.

**DESCRIPTION:** Children come to St. Ann's with a background of emotional, behavioral or learning disabilities. We serve these children through our residential, day school, and outreach programs. All of our programs are designed to provide a continuum of services to children who need intensive and comprehensive help for themselves and their families.
