INDEPENDENT AUDITORS' REPORT

To the Trustees
Roman Catholic Archdiocese of Boston Insurance Plan

We have audited the accompanying statements of benefit obligations and net assets available for benefits of the Roman Catholic Archdiocese of Boston Insurance Plan as of June 30, 2007 and 2006, and the related statements of changes in benefit obligations and net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Roman Catholic Archdiocese of Boston Insurance Plan at June 30, 2007 and 2006, and the changes in its financial status for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Roman Catholic Archdiocese of Boston Insurance Plan

Notes to Financial Statements

June 30, 2007

Note 1 - Description of Plan

The following brief description of the Roman Catholic Archdiocese of Boston Insurance Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General - The Plan provides life and accidental death and dismemberment insurance coverage for substantially all lay employees who work for a participating employer. All participating employers are separately incorporated Catholic organizations that operate within the Archdiocese of Boston.

Eligibility for Participation - For all employees, participation begins on the first of the month following the completion of at least 1,000 hours of service during a one-year period. Those who are employed by participating schools are eligible provided they have been scheduled to work at least 24 hours per week for an entire academic year.

Benefits - The amount of life and accidental death and dismemberment coverage is based upon 150% of the employee's annual earnings to a maximum coverage of \$200,000. The percentage of coverage is reduced to 120% upon reaching age 65, and reduced to 90% upon reaching age 70. The minimum benefit payable under the Plan is \$10,000.

The amount of accidental death and dismemberment coverage during total disability is reduced to 100% of the employee's annual earnings and reduced to zero upon reaching age 65.

Contributions - The Plan agreement provides that the participating employers make monthly contributions to the Plan of a specified amount based on the annual salaries of the eligible employees. The employer's contribution rate is determined annually by the Plan's trustees, and is primarily set based upon the insurance contract premiums paid by the Plan. The contribution rate for the year ended June 30, 2007 and 2006 was \$.35 per \$1,000 of eligible salaries per month.

Funding - The Plan is fully insured through insurance contracts. Accordingly, the statement of changes in net assets available for benefits is charged with the cost of current insurance premiums, and there are generally no recorded benefit obligations (see Note 2, "Provision for Coverage on Waivers of Premium"). These insurance contracts will automatically renew during October of 2008, unless directed otherwise by the Plan.

Note 2 - Summary of Significant Accounting Policies

Accounting Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures of assets, liabilities, benefit obligations and changes therein. Actual results could differ from those estimates.

Roman Catholic Archdiocese of Boston Insurance Plan

Notes to Financial Statements (Cont.)

June 30, 2007

Note 2 - Summary of Significant Accounting Policies (Cont.)

Cash and Cash Equivalents – For purposes of presentation of the statement of net assets, cash includes all bank accounts and overnight investments from the accounts. The Plan deposits its cash in major financial institutions, which are insured by the Federal Deposit Insurance Corporation (“FDIC”) up to \$100,000. At times, such cash is in excess of FDIC insured limits. At June 30, 2007, the excess approximated \$202,000 based on bank balances. Cash equivalents consist of investments in uninsured money market mutual funds approximating \$1,706,000 at June 30, 2007. The Plan has not experienced any losses as a result of uninsured amounts.

Participating Employers’ Contributions Receivable – Amounts receivable from participating employers are stated net of an allowance for uncollectible accounts, which is reported on the face of the Plan’s statement of benefit obligations and net assets available for benefits. The allowance is established via a provision for uncollectible assessments. On a periodic basis, management evaluates its receivables and establishes or adjusts its allowance to an amount that it believes will be adequate to absorb possible losses on accounts that may become uncollectible based on evaluations of the collectibility of individual accounts.

Provision for Coverage on Waivers of Premium - The Plan's financial statements include provisions for estimated future benefits payable to participants qualifying for premium waivers under the Plan document. Such provisions generally apply to participants whose employment terminated due to disability.

Note 3 - Related Party Transactions

A service fee for administrative, technology and clerical services is charged to the Plan by the Roman Catholic Archbishop of Boston, A Corporation Sole. The fees charged for the years ended June 30, 2007 and 2006 were approximately \$87,000 for each year.

Note 4 – Board-Designated Net Assets

In 2005, the Board of Trustees voted to establish a targeted reserve of net assets equaling 150% of the current years’ assessments.

Note 5 - Financial Instruments and Concentrations of Credit Risk

The Plan's financial instruments that are potentially subject to concentrations of credit risk consist primarily of cash, cash equivalents and contributions receivable from participating employers, which are periodically evaluated for their collectibility.

INDEPENDENT AUDITORS' REPORT

To the Trustees
Roman Catholic Archdiocese of Boston Insurance Plan

The audited financial statements of the Plan, and our report thereon, are presented in the preceding section of this report.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedules of general and administrative expenses for the years ended June 30, 2007 and 2006, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
