Dear Parishioners and Friends,

May the Lord bless your family celebrations as you gather with family and friends to count your many blessings this Thanksgiving season.

As you may know, each year the parish is required to make an accounting of our parish assets and expenses. Your Finance Council has had an opportunity to examine both the “Profit & Loss” and the “Trial Balance” sheets over the last year. They have been monitoring the situation in the face of these challenging times.

Since my arrival in September, I have met with the Finance Council on three occasions to seek to stabilize our losses. The reality is clear, we need your help to maintain the quality of services you have come to experience and expect. The parish is our larger family. Therefore I look to you for financial help in meeting our obligations. My prayer is that with your help, and with my presence we will together be able to stabilize the parish’s financial situation.

I conclude with a few observations. My experience of community involvement has been wonderful. Both our liturgies and the Generations of Faith program are of the highest quality. I am filled with hope as together we move forward.

Thank you for all that you have done and are doing to keep the parish spirit alive and growing.

May peace be given you,

Fr Ron
